

Coronavirus vaccination

The 3rd vaccination

The vaccine is effective!

Stay protected!

Your vaccination protection decreases over time. **The risk of infection increases** due to Omicron. A **further vaccination** with an **mRNA vaccine** is recommended.

Stick to the recommendations!

For **longer-term protection**, a **3rd vaccination from 12 years of age** is generally recommended. This keeps the risk of severe COVID-19 disease low.

Let's talk about it!

Your experiences can help others to decide **for vaccination**. The fact is that COVID-19 is dangerous, the **vaccination protects**.
