Go and get vaccinated!

COVID-19 is dangerous, the **vaccination protects**. A coronavirus vaccination is recommended in the **2nd or 3rd trimester of pregnancy**, depending on the vaccination status.

Protect yourself and your child!

Pregnant women are at **increased risk** of a severe COVID 19 course of disease. The vaccination of the mother has **no negative effect** on the child.

Let's talk about it!

Your **experiences** can help others to decide for **vaccination**. The fact is that the coronavirus vaccination does **not make you infertile or impotent**.

Get vaccinated now!
